D.O.No.7(23)/2020-NHM-I

Dated 7th April 2020

Dear Colleague,

As we know, the entire Health team in all the States/UTs is putting all their efforts in the effective containment and management of COVID-19. Availability of Qualified Human Resources at required places is a critical element in the effective management of the pandemics like COVID-19.

In the wake of the present COVID situation, it is essential to fill up the IDSP (Integrated Disease Surveillance Programme) positions especially the Epidemiologist in all the District and State Units of IDSP in your States. In this regard, it is to bring to your kind notice that Hon'ble PM has raised this issue with the Hon'ble Chief Ministers during the Video conference held on 3rd April 2020 regarding the necessity to fill up the vacancies of epidemiologist posts and other required posts for the surveillance activities of COVID. It is also to bring to your notice that Centre for Disease Control and Prevention (CDC) trained epidemiologists, if any, working in other divisions of the Health Department, need to be deployed for this task immediately.

Hence, it is requested to take steps to fill the epidemiologists and other required positions for surveillance (as per list attached) by offering appropriate salary on a war footing. The empanelled HR agencies under NHM may also be roped-in for this purpose. Also, these posts can be filled through appropriate re-deployment of existing human resources working in other programmes and departments of the State Government.

In case of any requirement of technical assistance to the States/UTs, the HR wing of NHSRC may be contacted.

I request urgent action in this regard.

I had written to you in this regard earlier also. Request urgent action please!

Yours sincerely,

(Preeti Sudan)
