Dear Sir/Madam,

Kindly find attached the following document for your review as on 09.April 2020, 10.20 AM:

1. Key hotspots to track and Trajectory over last 15 days vs. other countries
2. State Logistic Report - The excel document includes State HQ facilities and district facilities logistic status for Covid management

Following are the key observation State and District Logistic Report:

| Key observations |
|---|
| For 151 Health Facilities, Facility Nodal officer Name has been kept blank. |
| For 151 contact number of Facility nodel officer has been kept blank. |
| For 4 Health facilities, Category Health Facility has been kept blank. |
| For 16 Health Facilities, Total Number of Beds Available in Facility has been kept blank/Zero |
| For 30 Health Facilities, No. of Isolation beds for COVID Confirm Cases has been kept blank |
| For 52 Health Facilities, No. of Isolation beds for COVID Confirm Cases has been kept blank/Zero |
| For 141 Health Facilities, No. of Isolation beds for COVID Suspect Cases has been kept blank |
| For 120 Health Facilities, No. of ICU Beds has been kept blank/Zero |
| For 110 Health Facilities, No. of Ventilators has been kept 0 or may be they are not available. |
| For 47 Health Facilities, No. of District PPES Hospital has been kept 0/blank or may be they are not available. |
| For 68 Health Facilities, PPES/ Hospital has kept less than 15 . |
| For 24 Health Facilities, No. of District N95 Masks in Hospital has been kept 0 or may be they are not available. |
| For 66 Health Facilities, No. of Ventilators has been kept less than 5. |
| For 77 Health Facilities, N95 Masks in hospital has been kept less then 20 . |

Note: In Key hotspots to track and Trajectory analysis slide, following are the consideration, 1. If less than 10 cases were reported 3 days earlier or if cases have remained same for past 3 days, then doubling rate was not calculated; 2. **Current hotspot** districts account for >80% of total confirmed COVID-19 cases in the State; 3. **At risk districts** have high case growth rate over last 14 days and high population density or presence of an international airport; 4. **Infected districts** are those with atleast 1 confirmed case of Covid-19

| or 68 Health Facilities, PPES/ Hospital has kept less than 15 . |
| or 24 Health Facilities, No. of District N95 Masks in Hospital has been kept 0 or may be they are not available. |
| or 66 Health Facilities, No. of Ventilators has been kept less than 5. |
| For 77 Health Facilities, N95 Masks in hospital has been kept less then 20 . |

Note: In Key hotspots to track and Trajectory analysis slide, following are the consideration, 1. If less than 10 cases were reported 3 days earlier or if cases have remained same for past 3 days, then doubling rate was not calculated; 2. **Current hotspot** districts account for >80% of total confirmed COVID-19 cases in the State; 3. **At risk districts** have high case growth rate over last 14 days and high population density or presence of an international airport; 4. **Infected districts** are those with atleast 1 confirmed case of Covid-19
